

## **HELP ACTIVE THERMO**

### **PROFESSIONAL DRAIN UNBLOCKER**

#### **PROPERTIES:**

Has an active formula providing a rapid unblocking of blocked drains of showers, wash-hand basins, sinks, toilets, urinals, and run offs etc.

HELP ACTIVE THERMO starts to act immediately when it comes in contact with water; it produces heat and unlocks drain pipes very quickly. Removes greasy residues and all organic waste. It breaks down mineral and animal matter along with hair, paper, lime scale, rags, cellulose and leaves. It will also dissolve vegetable waste and food by-products such as fish scales. No pipe disassembly is necessary.

#### **BENEFITS:**

- Quickly dissolves all organic waste, slime, slurry, vegetable matter and grease.
- Surfactants are biodegradable.
- Is compatible with septic tanks.
- Does not damage rubber, PVC, iron or lead.
- Reach stoppages quickly, even those away from the place of application

#### **INSTRUCTIONS FOR USE:**

Remove as much water as possible from the drain that needs to be unclogged. Slowly pour small amounts of pure product in the pipeline to unclog. Leave it work for 5 minutes. Then rinse abundantly. Repeat if necessary

**ALWAYS ADD THE PRODUCT TO WATER, NOT THE OTHER WAY AROUND!**

**Never use in combination with other drain unblockers!**

#### **CHEMICAL SPECIFICATIONS:**

pH: <1

Density at 20 °C: ± 1,8 g/cm<sup>3</sup>
